PureDisplay meets AI-powered advanced triple camera

**Colours:**  
Ceramic Black, Ice

## Key features

Nokia 6.2 is the first Nokia 6 series smartphone to premiere a triple camera and PureDisplay technology. Bringing always-on HDR to a brand new smartphone segment, alongside a powerful triple camera, Nokia 6.2 lets fans enjoy entertainment on the go like never before.

### PureDisplay screen technology with always-on HDR

Featuring the innovative PureDisplay technology, Nokia 6.2 delivers an immersive entertainment experience for unmatched mobile viewing on the go. A dedicated Pixelworks visual processor upscales video content to HDR quality in real time, with up to a billion shades of colour, higher contrast and expanded dynamic range. Nokia 6.2 also comes with high brightness and local contrast enhancement, making it easy to view content even in brighter conditions.

### Triple camera, combined with AI features and two-day battery

Experience powerful photography with an advanced triple camera setup that delivers detailed images, beautifully blurred bokeh portraits and wide angle shots that capture everything you want.

Night mode with image fusion and exposure stacking – for increased low light performance.

Portrait mode brings AI features like: adjustable bokeh with various bokeh styles such as Classic, Heart and Star for a professional-looking background blur. Nokia 6.2 allows you to create unique shots, that stand out on social platforms.

### Timeless Nordic design heritage meets engineering excellence

Crafted from polymer composite that is twice as strong as polycarbonate and half the weight of aluminium, Nokia 6.2 is super strong and rigid.

### Android™ 10 ready with Android One

As part of the Android One family, Nokia 6.2 is Android 10 ready and will receive guaranteed monthly security updates for three years and OS upgrades for two years so your smartphone will get better over time.
