Key features

Nokia 7.2 is designed to offer fans advanced tools to express their creativity with a powerful 48MP triple camera featuring ZEISS Optics. The smartphone combines stunning PureDisplay screen technology with timeless Nordic design, in a class-defining package.

Get creative with ZEISS Optics and powerful AI

Create shareworthy memories with intricate detail in both well lit and dim conditions with Nokia 7.2's triple camera featuring a highly sensitive 48MP sensor with Quad Pixel technology and ZEISS Optics and powerful AI.

Portrait mode with unique ZEISS bokeh styles - ZEISS Modern, ZEISS Swirl and ZEISS Smooth - that recreate the way legendary ZEISS lenses produce high visual impact and signature blur.

AI powered Night mode with image fusion and exposure stacking can sense whether hand held or on a tripod, adjusting the number of exposures accordingly. Together with a super sensitive sensor delivers stellar low light performance.

Breath-taking PureDisplay with always-on HDR

Featuring the innovative PureDisplay technology, Nokia 7.2 delivers an immersive entertainment experience for unmatched mobile viewing on the go. Dedicated Pixelworks visual processor upscales video content to HDR quality in real time, with up to a billion shades of colour, higher contrast and expanded dynamic range. Nokia 7.2 also comes with high brightness and local contrast enhancement, making it easy to view content even in brighter conditions.

Timeless Nordic design heritage meets engineering excellence

Crafted from polymer composite that's twice as strong as polycarbonate and half the weight of aluminium, Nokia 7.2 is super strong and rigid.

Android™ 10 ready with Android One

As part of the Android One family, Nokia 7.2 is Android 10 ready and will receive guaranteed monthly security updates for three years and OS upgrades for two years so your smartphone will get better over time.

Nokia 7.2 sales package includes
