

Nokia 800 Tough

One tough phone with 4G

Colours
Black Steel | Desert Sand

Key features

Nokia 800 Tough is built for durability. Designed for heavy-duty usage, it can resist water, dust, accidental drops and even extreme temperatures. It comes with a long-lasting battery and 4G LTE capabilities, as well as all the essentials you need – like a camera with LED flash, powerful flashlight, Google Assistant and apps from Google Maps to WhatsApp.

Waterproof, dust proof and drop protected

With an IP68 rating, Nokia 800 Tough is designed to survive accidental drops, and is resistant to dust, sand, water and even extreme temperatures. Destination: Anywhere.

Get the job done with 4G

With bigger buttons, anti-slip grip, preloaded apps and 4G LTE, Nokia 800 Tough has got you covered –the perfect device to use while you're hard at work or on your adventures.

Stay in touch

Nokia 800 Tough comes preloaded with WhatsApp and Facebook – meaning you're always in the loop with family and work. Want more apps? Simply download from the ever-growing app store.

Outstanding battery. Best essentials.

A flashlight, camera, loudspeaker and more – all powered by Nokia 800 Tough's long-lasting battery. Nokia 800 Tough is jam-packed with all the utilities you need, no matter what the day – or night – throws at you.

The Google Assistant – Get more done with your voice¹

Make calls and send messaging without typing. With a push of a button, your Google Assistant can help manage your phone features with just your voice.

Nokia 800 Tough sales package includes

 - Dual Sim
Standby time up to: GSM 36.2 days, 3G 30.4 days, 4G 22.4 days
Talk time up to: GSM 12.5 hours, 3G 14.3 hours, 4G 9.4 hours

1. The Google Assistant is available in selected languages only. | 2. The actual availability of VoLTE HD calls is subject to local operators' and carriers' services. | 3. Pre-installed system software and apps use a significant part of memory space. | 4. Battery has limited recharge cycles and battery capacity reduces over time. Eventually the battery may need to be replaced. | 5. Testing done in lab conditions with no background apps running. Test may differ between single sim and dual sim variants.
